MEMORANDUM FOR THE RECORD

SUBJECT: Legislative Matters

1. On this date I met with Admiral Taylor and Colonel White for the weekly discussion of legislative business.
2. Discussed the Senator Miller breakfast for tomorrow, running down the participants.
3. Indicated that matters are all set for the briefing of the Hardy Defense Posture Subcommittee. Indicated we would raise at tomorrow morning's meeting the participants the Director might like to have accompany him.
4. Referred briefly to Russ Blandford's indication that Chairman Rivers wanted both a full Committee briefing and a CIA Subcommittee meeting as soon as this could be scheduled. It was indicated that the full Committee briefing would be the normal review of the Soviet and Chinese Communist threat.
5. Indicated that with the changing of the JMWAVE station, the new location would no longer be in Fascell's district because of redistricting but would be in Claude Pepper's district. It was recommended that Pepper be briefed in general terms on the existence of the facility as a form of insurance. It was agreed this was a wise precaution.

9. Referred to the Joint Committee on Atomic Energy letter from Conway to the Director referring to the de Voljois article in LIFE magazine. Following through with the Director's wishes, there is now a luncheon scheduled for 6 May at which Conway and George Murphy will be present. Mr. Maury will raise this with the Director with respect to any preparations and other participants.

10. In connection with the Director's letter to Senator Russell on Agency legislation, it was indicated that [REDACTED] has rebriefed Ed Braswell on the specific figures involved in the cost-of-living provision.

11. Referring to S. 917, it was indicated Senator Mansfield expressed a hope to have this on the floor this week and it looked like probably this would pass although it may be delayed in floor action. Mentioned in this connection our discussion with Richard Poff this morning and his assurance of assisting us in whatever way possible to maintain the desired language in the wiretap section.

12. Discussed S. 1779 and the hearings of last week. It was indicated we desired some word changes due to the overly broad language restricting beneficiaries from passing intelligence. Indicated we were working up appropriate language which we believed we could have inserted by Committee counsel on an informal basis.

13. Advised that H. R. 13738 which increases per diem rate in Government had passed the House last week and the prospects look good that it will receive favorable action in the Senate.

14. Referred to our discussion last week with Charles Johnson, Staff Director, House Post Office and Civil Service Committee. Johnson advises that the current plans still call for a report to the President from the Commission to advise on executive, judicial, and congressional salaries prior to 1 January 1969. In turn, the Administration plans to include its recommendations on these topics in the budget message which is sent to the Congress in January of 1969 rather than waiting, as is authorized by law, until 1970. If this plan is followed, the new salary levels could become effective possibly in March or April of 1969.

15. Advised that Mr. Maury had been working with Mr. Warner for some weeks now and that the transition is proceeding according to schedule. Indicated that we had been able to introduce Mr. Maury to upwards of 100 people on the Hill.
